Category: [Entertainment](#)

Updated: Jan 11, 2017

Version: 3.1

Description

Mobile VR Station is a media player designed for Virtual Reality with head tracking. With this app you can view your Photos, Panoramas, Videos & Files projected onto a virtual screen floating in space. Our app supports displaying standard 2D and 3D Side By Side/Over Under content. The app can't display DRM protected content, such as content bought from iTunes.

"The most feature-packed VR media player available, with editable profiles that let you adjust the viewing experience across multiple devices and VR adapters. Excellent all around!"

-Quote from Manuel M, Beta Tester

If you need help we provide links inside the app to view our Facebook, Twitter and YouTube channel.

Usages:

- Works with every headset, very flexible configuration
- Watch movies in a virtual theater
- Watch 3D 180 Degree content.
- Explore 360/Spherical movies (Great for demos).
- Experience 3D content (Left/Right, Right/Left and Top/Bottom).
- See your device's photos & videos in a new way.
- View panoramas with some depth.
- Access external video content with UPNP.
- Watch HTML5 Video from Mobile Safari with Micro VR Station extension.
